Common equity Tier I capital (to risk-weighted assets) [5]	14.85%	15.51%
Tier I capital (to risk-weighted assets) [5]	14.85%	15.51%
Tier I capital (to total adjusted assets) [5]	10.46%	11.17%

(1) All ratios are annualized where applicable and expressed as percentages.
(2) The interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities for the period.
(3) The net interest margin represents net interest income as a percent of average interest-earning assets for the period.
(4) The efficiency ratio represents noninterest expense divided by the sum of net interest income and noninterest income excluding net gains (losses) on the sale of other assets.
(5) Capital ratios are for Ben Franklin Bank only.

On February 5, 2019, the Office of the Comptroller of the Currency (OCC) terminated the consent order that the Bank was subject to and entered into a formal agreement (the "Formal Agreement") with the Bank covering strategic planning, capital planning, reporting and corporate governance. With the termination of the consent order, the Bank is no longer subject to certain regulatory restrictions on the rates it can pay for new and renewed deposits. While subject to the consent order, the Bank could not accept new deposits, or renew or rollover existing deposits, with rates more than 75 basis points above the national deposit rate published by the FDIC.

On July 17, 2019, Corporate America Family Credit Union ("CAFCU") and Ben Franklin Financial, Inc. (the "Company").announced that CAFCU, the Company, and Ben Franklin Bank of Illinois (the "Bank") have signed a definitive purchase and assumption agreement (the "Agreement") whereby CAFCU will acquire the assets and assume the liabilities of the Bank in an all-cash transaction. Following the completion of this transaction, the existence of Bank and the Company will end and their remaining assets, after all obligations are settled, will be distributed to the Company's stockholders.

Under the terms of the purchase and assumption agreement, the Company's stockholders are currently estimated to receive between $10.33 and $10.70 in cash consideration for each share of the Company's common stock (the "per share consideration”). The per share consideration is subject to significant variation based on various items, such as the Bank’s ability to meet a minimum equity target at closing; the regulatory treatment of and costs associated with the liquidation accounts maintained by the Company and the Bank; the amount of cash held by the Company at closing; costs related to terminating the existence of the Bank and the Company and distributing the remaining assets to stockholders; and future operating results. Other factors that may cause a reduction in the per share consideration include, among others, final costs associated with terminating specific employee benefit plans and any Bank environmental problems with remediation costs over a threshold amount.

The transaction has been unanimously approved by the board of directors of each party and is expected to close in early 2020, subject to customary closing conditions, the approval of the Company’s stockholders, regulatory approvals, and if required, approval of the depositors of the Bank. The distribution of cash to Company stockholders is expected to occur within several months after completion of the sale of assets to CAFCU. Additional information regarding the proposed transaction with CAFCU will be available to stockholders in the proxy statement relating to the special meeting of stockholders to vote on the proposed transaction.

Total assets for the Company at June 30, 2019 were $97.8 million, an increase of $3.5 million or 3.8% compared to the balance at December 31, 2018 primarily due to the $3.3 million increase in the balance of our cash and cash and equivalents and the $1.0 million increase in fixed assets. The increase in fixed asset was primarily due to the adoption in January 2019 of ASU 2016-02 Leases. Our loan portfolio balance decreased $792,000. Our deposit balances increased $2.7 million primarily due to the $4.9 million increase in the balance of our certificate of deposit accounts, partially offset by the $1.5 million decrease in our money market account balances and $703,000 decrease in are savings account balances. Our other liabilities increased $1.1 million primarily due to the adoption of ASU 2016-02 Leases, which required that all leases, with the exception of short-term leases that have contractual terms no greater than one year, be recorded on the balance sheet.

Our net loss for the six months ended June 30, 2019 was $399,000 compared to the net loss of $183,000 for the six months ended June 30, 2018. The increase in our net loss was primarily due to the $155,000 increase in our non-interest expense and the $104,000 decrease net interest income, partially offset by the $34,000 increase in our credit for loan losses and the $9,000 increase in our non-interest income.

The decrease in our net interest income was primarily due to the $41,000 decrease in our interest income from loans and the $66,000 increase in our interest expense. The average balance of our loan portfolio decreased $2.0 million for the six months ended June 30, 2019 compared to the prior year period. The costs of our interest bearing deposits increased 19 basis points primarily due to the increase in our certificate of deposit and money market costs. The average balance of our deposit accounts decreased $10.1 million for the six months ended June 30, 2019 compared to the prior year period. The average balance of our Federal Home Loan Bank advances increased $3.0 million while the average cost increased 45 basis points. Our net interest margin was 3.73% for the six months ended June 30, 2019 compared to 3.68% for the prior year period.

Our non-interest income increased $9,000 for the six months ended June 30, 2019 compared to the prior year period primarily due to the increase in our other real estate owned income.

Our non-interest expense increased $155,000 or 7.6% for the six months ended June 30, 2019 compared to the prior year period. Our professional fees increased $247,000 primarily due to the $287,000 increase in legal fees related to the strategic initiative to market the Company, the costs associated with the resolution of regulatory issues, and the negotiation of the purchase and assumption agreement with CAFCU. These fees were partially offset by the $49,000 decrease in audit related fees. Our FDIC insurance premium decreased $63,000 primarily due to adjustments related to the change in our assessment rate. Our other repossessed asset expense decreased $23,000 primarily due to the decrease in write-downs in the properties. Our other expense decreased $16,000.

For a discussion of risks that may affect our financial condition and results of operations, see the factors discussed in our annual report for the year ended December 31, 2018, under the heading “Forward-Looking Statements”. These and other risk factors not presently known to us, or that we currently deem immaterial, could adversely affect our future results and prevent us from successfully implementing our strategic growth plan.
